EDUCATION

UNH Fullstack Coding Bootcamp - Certificate

December 2022-June 2023

Enrolled in the University of New Hampshire's Full Stack Coding Bootcamp, a comprehensive program that has provided me with extensive training in essential web development technologies such as Git/Github, Hyper Text Markup Language (HTML), Cascading Style Sheets (CSS), Javascript, Node.js, Inquirer, Structured Query Language (SQL), Sequelize, Handlebars, Express.js, MongoDB, and React. Skilled in using these tools to develop dynamic and responsive web applications through collaborative project work in small groups. Looking to apply my skills and knowledge to a role in software development.

Northern Essex Community College - Associate of Science Degree (Partial Completion)

August 2021 - February 2022

Successfully completed the first semester in Electrical Engineering, gaining hands-on experience in designing digital logic systems and creating schematics using logic gates. Additionally, I acquired proficiency in AutoCAD and Calculus 1. However, after careful consideration, I made the decision to pivot my career towards coding during the Spring semester as it aligned more closely with my interests and goals, and I am now pursuing opportunities in this field.

SKILLS/TRAITS

Self-Driven, Highly motivated, Detail oriented, Analytical thinking skills, Communication, Time management, Git/Github, Troubleshooting/ Debugging, Hyper Text Markup Language (HTML), Cascading Style Sheets (CSS), Javascript, Nodejs, Expressjs, Structured Query Language (SQL), Handlebars, MongoDB, Sequelize, Customer Service, Word, Excel

WORK EXPERIENCE

Prosciutto's, Londonderry NH - Line Cook

August 2022-Present
